| Complete    | 7/30       | 11932 SW 148th Terrace                              | The recent rainfall on June 25, 2026, and flooding has washed out my driveway that contains two culverts.                                                                                                                                                                                                   |
| Underway    |            | 11857 Sw 160th                                      | Could we please get the easement/ditches mowed around our property ? We have our home listed for sale and we would like the property to look nice !!                                                                                                                                                        |
| Complete    |            | 12618 SW Meadowlark Rd                              | Rock and sand have continued to wash from the road into the ditch and completely blocked the culvert. Road debris and rock now constantly eroding the drive away and needs to be constantly cleaned out of the yard.                                                                                        |
| Complete    | 7/30       | 14743 SW 140th Street, Rose Hill                    | Rains/run-off this past week washed a ditch down the front of my place, washing the gravel into the existing ditch. I now have a washout at both of my drives. Need the road grader to clean out my ditch, using the washed out gravel to fill the new ditch forming along the entire front of my property. |
| Complete    | 7/30       | 171st street between 14645 & 14703 south side       | Getting really concerned about the 5 foot plus hole drop off at the side of the road / culvert and future road deterioration. PLEASE Come take a look. Someone is really going to get hurt. And it's not going away...it's just going to get worse. Thank you, G.                                           |
